

The rumors are true.

For more information about South Coast Medical Center visit our website at: www.southcoastmedcenter.com or call 949-499-1311

South Coast Medical Center has an expert Surgical Staff performing minimally invasive surgeries for South Orange County residents!

It's true. South Coast Medical Center offers minimally invasive surgeries that minimize recovery time. These surgeries offer distinct advantages to patients, including smaller incisions, less pain and speedier recovery times. Many procedures such as hernia repair and bariatric surgery are performed with a laparoscope by skilled surgeons who are members of our medical staff. South Coast Medical center is staffed with top-notch physicians in a multitude of specialties, which include but not limited to:

- Orthopedic Surgery
- Ophthalmology
- Laparoscopic band surgery (weight loss surgery)
- Urogynecology & Reconstructive Pelvic Surgery
- Urology
- General Surgery

For more information on a particular physician, contact South Coast Medical Center's physician referral line at (949) 499-7202.

The rumor is true: South Coast Medical Center has physicians who perform minimally invasive surgeries to ease the comfort of patients.

Go ahead ... spread the rumor.
